Production-Discontinuation: SCON-CAL/CGAL

February 2023

Dear Sir and Madam,

Thank you for being our valued customer. We appreciate your continued business and support.

Due to difficulty of continuing to produce the following models, we regret to announce herewith a production discontinuation.

- | | |
|-------------------------------|--|
| 1. Affected model | : SCON-CAL/CGAL |
| 2. Reason for discontinuation | : Difficult availability of the CPU and electric components used in this product and the availability of the successor model |
| 3. Successor models | : SCON-CB/CGB
Please find the next page for the detail. |
| 4. Order cutoff date | : 22 September 2023 |
| 5. Repair service cutoff date | : 23 September 2023
* We may have to stop the service earlier if the corresponding spare parts are no longer available. |

We sincerely apologize for any inconvenience caused by the discontinuation of the products and ask for your understanding and cooperation.

Best regards,

IAI Industrieroboter GmbH

Differences between SCON-CAL/CGAL and SCON-CB/CGB

1. Product and mounting dimensions are different. DIN rail mounting type is not available for SCON-CB/CGB.
2. Difference in Fieldnetwork module
 - Except in CC-Link, EtherCAT, and PROFINET, the field network configuration file needs to be changed
3. Parameter file and backup file are different
 - RC PC-software can convert the position data from CAL/CGAL to CB/CGB.
 - TB-01/02/03 and CON-PTA do not support conversion.
4. Old teaching pendants are not compatible with SCON-CB/CGB.
 - CON-T, CON-PT, and RCM-PM-01 are not compatible.
5. Old gateway models are not compatible with SCON-CB/CGB.
 - RCM-GW and Robonet-GW are not compatible.

Compatibility with SCON-CB/CGB

- Serial communication via RS485 interface
- Wiring for the power supply and emergency stop circuit
- Pin assignment, function assignment and cable type at the digital input / output (I / O)
- Motor/encoder cables
